PROFESSIONAL SUMMARY

Senior Full Stack .NET Developer with 10+ years of experience architecting, modernizing, and scaling enterprise applications across workflow automation, real estate ERP, and banking. Full-stack expertise spanning C#, ASP.NET Core, Web API, Angular/AngularJS, React, Next.js, and TypeScript, backed by SQL Server, Entity Framework, and Dapper on the data layer, and Docker, Kubernetes, and Azure for cloud-native delivery and CI/CD. Delivered systems supporting 10,000+ plots, millions of archived records, 174-branch data consolidation, and 200+ biometric users, improving critical reporting performance by ~35% and deployment effort by ~40%. Strong in Clean Architecture, microservices, database optimization, release engineering, production troubleshooting, and cross-functional technical leadership.

CORE TECHNICAL SKILLS

Frontend: Angular, AngularJS, React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Bootstrap

Backend & .NET: C#, ASP.NET Core, ASP.NET MVC, ASP.NET Web API, REST APIs, Entity Framework Core, Entity Framework, Dapper, ADO.NET

Cloud & DevOps: Azure App Service, Azure SQL, Azure Blob Storage, Azure Functions, Azure DevOps, Docker, Kubernetes, Jenkins, Bitbucket, Git, TFS, CI/CD

Database & Analytics: SQL Server, PostgreSQL, SQLite, T-SQL, SSIS, Data Warehousing, SSRS, Power BI, RDLC

Architecture & Integration: Clean Architecture, Microservices, gRPC, RabbitMQ, Azure Service Bus, WCF, SOAP Services, Windows Services, Enterprise Integration, Performance Optimization

Leadership & Delivery: Technical Leadership, Requirement Analysis, SDLC, Code Review, Production Troubleshooting, Cross-Functional Delivery, AI-Assisted Development with Claude and Claude Code

PROFESSIONAL EXPERIENCE

Senior Full Stack .NET Developer (Independent Consultant) | Ultimus | USA (Remote) | Sep 2022 - Aug 2026

Enterprise process automation, visual workflow design, full-stack development, containerized delivery, and release engineering for the CPS (Composed Process Solution) platform.

- Architected and delivered 10+ Visual Composer capabilities, including configurable grids, forms, layouts, dynamic data bindings, property panels, and real-time rendering.
- Modernized front-end architecture by introducing React and Next.js components alongside AngularJS, improving rendering performance and accelerating delivery of new UI modules.
- Containerized backend services with Docker and orchestrated deployments with Kubernetes, improving environment consistency and simplifying multi-environment release management.
- Built reusable backend service components for enterprise processing, cross-module communication, workflow services, and data integration.
- Developed Loader Generator software that reduced manual deployment validation and testing effort by approximately 30%.
- Implemented data-archiving workflows that migrated millions of records while preserving consistency, traceability, and zero data loss.
- Automated build and release pipelines with Bitbucket and Jenkins, reducing manual deployment time by approximately 40% and improving release consistency.
- Partnered with product, QA, and engineering teams to diagnose production issues, improve performance, and deliver stable enterprise releases.

Technology: C#, ASP.NET Web API, AngularJS, React, Next.js, SQL Server, Entity Framework, WCF, REST APIs, Docker, Kubernetes, Jenkins, Bitbucket, CI/CD

Senior Software Engineer | DHA Peshawar | Peshawar, Pakistan | Mar 2021 - Aug 2022

Enterprise applications, analytics, reporting, data warehousing, database optimization, integrations, and application/database operations.

- Designed and delivered 15+ SSRS and Power BI reports for management dashboards and operational decision-making.
- Implemented a data warehouse consolidating 5+ source systems for historical analysis, audit reporting, and cross-system analytics.
- Integrated ZKTeco biometric devices for 200+ employees, e-Challan systems, and thermal printers for operational workflows.
- Optimized T-SQL queries, stored procedures, and views, reducing critical report generation time by approximately 35%.
- Administered application and database servers while maintaining 99%+ availability for business operations.

Technology: C#, ASP.NET Web API, SQL Server, T-SQL, SSRS, Power BI, Elasticsearch, Bootstrap

Software Developer | Bank of Khyber (BOK) | Peshawar, Pakistan | Mar 2020 - Mar 2021

Banking application development covering cash management, audit systems, lending portals, and digital banking for one of Pakistan's leading public-sector banks.

- Developed a Cash Management System deployed across 20+ schools, institutes, and merchants, improving financial tracking accuracy and reducing manual cash reconciliation.
- Built a Lending Data Collection Portal (Conventional & Islamic) integrating with Temenos T24 DMT compliance rules, streamlining data collection from 50+ branches.
- Delivered a Distributed Management System Data Merger, consolidating data from bank branches into a centralized database for unified monitoring and reporting.
- Implemented the Bank of Khyber Audit Management System, digitizing internal audit workflows and improving audit tracking turnaround time.
- Converted 10+ Temenos BI reports into streamlined Power BI dashboards, reducing management reporting effort and improving data accessibility for senior leadership.

Technology: C#, ASP.NET MVC, SQL Server, Power BI, Temenos T24, jQuery, JavaScript, Bootstrap

Software Engineer | DHA Peshawar | Peshawar, Pakistan | May 2016 - Feb 2020

Full-cycle delivery of real-estate ERP, finance, documentation, customer-service, payment, launch, and communication systems.

- Developed a Plot Management System supporting 10,000+ plots, customers, transfers, installments, demand certificates, surcharge, discounts, possession, and accounts receivable.
- Integrated online challan and payment workflows with Askari Bank, MCB, Bank Alfalah, and TCS, including API synchronization and automated reconciliation.
- Implemented email, SMS, postal, and bulk-print acknowledgement workflows serving 1,000+ notifications per month.
- Led digitization of 5,000+ land-record files into secure, searchable PDFs linked to the property-management platform.
- Built rule-based surcharge and waiver calculations, reducing manual computation effort by approximately 50%.
- Delivered plot balloting, launch management, tax, document verification, transfer, possession, and customer-service modules.

Technology: C#, ASP.NET MVC, ASP.NET Web API, SQL Server, Entity Framework, REST APIs, Windows Services, Bootstrap

EARLY CAREER

.NET Developer Intern | National Software Developer | Peshawar (On-site) | Jan 2016 - May 2016

.NET Developer Intern supporting design, development, testing, and maintenance of business software solutions for government client projects.

- Contributed to the Deed Agreement System for the Government of Khyber Pakhtunkhwa, supporting document automation and legal workflow management.
- Assisted development of the Local Government Umbrella Project for the Government of KP, improving operational data management across departments.
- Built and debugged application features using C#, ASP.NET, jQuery, and SQL Server under senior developer guidance.
- Strengthened skills in requirement analysis, database design, testing, and technical documentation.

Technology: C#, ASP.NET, SQL Server, jQuery, JavaScript, HTML, CSS, Bootstrap

Software Developer Intern | KP Bar Council | Peshawar District, Khyber Pakhtunkhwa, Pakistan (Hybrid) | Nov 2014 - Dec 2015

Software Developer Intern contributing to internal business applications focused on automation, communication, and attendance tracking systems.

- Built an SMS Alert System with GSM modem integration, improving communication and notification handling for council operations.
- Developed a Biometric Attendance System with SMS alert integration, supporting automated attendance tracking and reporting for staff.
- Contributed to a Double Entry System for structured data entry, record management, and operational control.
- Designed responsive interfaces using HTML5, CSS, Bootstrap, JavaScript, and jQuery for improved user experience.

Technology: C#, ASP.NET MVC, Entity Framework, LINQ, SQL Server, HTML5, CSS, Bootstrap, JavaScript, jQuery

SELECTED PROJECT PORTFOLIO

Ultimus CPS - Enterprise Process Automation

Enterprise workflow and low-code application platform built around Visual Composer, reusable UI controls, services, adapters, and integration patterns.

- Customized workflows and enterprise UI components using AngularJS, React, and Next.js; integrated processes, data sources, and external systems; containerized services with Docker and Kubernetes to improve maintainability and scalability.

Technology: C#, AngularJS, React, Next.js, ASP.NET Web API, SQL Server, Entity Framework, WCF, REST APIs, Docker, Kubernetes

Real Estate ERP - DHA Peshawar

Enterprise platform for customer and membership records, plots, installments, accounts receivable, surcharge/discount workflows, no-demand certificates, transfers, taxes, possession, construction tracking, and audit trails.

- Implemented FBR filer/non-filer checks, stamp-duty/tax rules, approval workflows, document scanning, camera integration, bulk Excel processing, online challans, and payment synchronization.

Technology: C#, ASP.NET MVC, ASP.NET Web API, SQL Server, Entity Framework, REST APIs

Data Warehouse & Analytics - DHA Peshawar

Historical analytical warehouse and reporting layer covering user transactions, close-of-business snapshots, archived reporting data, plot finance status, dues, receipts, surcharge, waivers, KPIs, and bulk finance exports.

Technology: SQL Server, T-SQL, SSIS, SSRS, Power BI

FREELANCE PROJECTS

Fophex ERP - Used Car Module | Freelance | fophex.com

Cloud-native, multi-entity ERP platform spanning financial accounting, inventory, HR & payroll, fixed assets, and property management. Contributed as developer and database administrator on the Used Car module and platform infrastructure.

- Developed the Used Car Module, handling vehicle inventory, listings, and transaction tracking within the ERP.
- Administered SQL Server databases across the platform, managing schema design, performance tuning, and data integrity.
- Set up and maintained CI/CD pipelines using Azure DevOps and GitHub Actions, streamlining build, test, and deployment workflows.
- Built operational and financial reports using DevExpress Reporting, integrated into the ERP's reporting layer.

Technology: ASP.NET Core, ASP.NET Web API, SQL Server, Dapper ORM, Bootstrap, jQuery, JavaScript, DevExpress Reports, Azure DevOps, GitHub CI/CD

Shah Alam Dairies - E-Commerce Platform | Freelance | shahalamdairies.com

Full-stack dairy e-commerce solution with product catalogue, customer ordering, billing, customer dashboard, and admin dashboard for product and order management.

Technology: Angular, ASP.NET Core, SQL Server, Entity Framework, Clean Architecture

Rug Manufacturer ERP | Freelance

ERP covering pre-production rug-step management and tracking, batch/main product stock, raw-material conversion and inventory, suppliers, purchases, customers, orders, billing/balances, investors/shares, accounting, expenses, HR, loans, salaries, and role-based authorization.

Technology: Angular, ASP.NET Core, SQL Server, Dapper ORM

Additional Projects: ZKTeco Biometric Attendance Integration; DHA Online Challan Integration; Online Payment Gateway; Launching Software; Record Digitalization; Acknowledge Alert Service; Attendance System; GET Consultants; Windows Phone Quiz Application + RESTful Service + Web Portal.

LICENSES & CERTIFICATIONS

- Generative AI: Prompt Engineering Basics - IBM | Issued Aug 2026 | Credential ID: HM0J3NOV6A7L
- Generative AI: Introduction and Applications - IBM | Issued Aug 2026 | Credential ID: JHE8M73EMZM5
- Introduction to Artificial Intelligence (AI) - IBM | Issued Aug 2026 | Credential ID: 702P2EDBOEQB
- TypeScript for JavaScript Developers - LinkedIn | Issued Aug 2026
- Claude Platform 101 - Anthropic | Issued Aug 2026 | Credential ID: fys4n5amg6xr
- Certificate of completion: Claude 101 - Anthropic | Issued Aug 2026 | Credential ID: bq397vqet8rb
- Certificate of completion: Claude Code 101 - Anthropic | Issued Aug 2026 | Credential ID: p2qm2axfuy2a
- TypeScript Essential Training - LinkedIn | Issued Aug 2026

EDUCATION & LANGUAGES

BS Software Engineering | Abasyn University, Peshawar, Pakistan | Completed Sep 2015

Languages: English (Professional) | Urdu (Native) | Pashto (Native)
